

CAPABILITY STATEMENT

www.infosynapsys.com

COMPANY OVERVIEW

Founded in 2018, Infosynapsys Technologies has pioneered consulting services in niche areas of IT, including Cloud transformation, DevSecOps, Data Sciences, IoT, and Artificial Intelligence. Developed and nurtured by technocrats with over three decades of experience across various industries—such as banking, insurance, reinsurance, restaurants, healthcare, training, and IT services—we specialize in driving and implementing strategic initiatives that leverage technology to power business success. At Infosynapsys Technologies, our deep industry knowledge and cutting-edge solutions empower our clients to achieve their strategic goals and stay ahead in a rapidly evolving technological landscape.
